ALL TENANTS

RE: New Water Meters

Dear Tenants,

This is just to make you aware that The City of Daytona Beach has hired National Metering Services (NMS), to replace or upgrade all existing water meters with new wireless technology. This will begin within the next few months and will work Monday through Saturday from 7A.M. to 6 P.M.

That means for you:

- More consistent, accurate consumption readings
- Daily and Monthly Usage Charts
- 24-Hour Leak Detection
- High/Low Consumption Alerts
- Alarms for cut wires & backflow conditions.

NMS installers will NOT need to enter your home since water meters are typically located in your yard, near the street. If the meter is inaccessible (in your backyard where dogs are present, locked access, etc.) you will be contacted to schedule an appointment. Installation of these new meters will take about 30 minutes.

Sincerely,

Daytona Property Management
